Annals of Pure and Applied Logic 40 (1988) 307–310
North-Holland

MASTER INDEX TO VOLUMES 31–40

Ash, C.J., Stability of recursive structures in arithmetical degrees 32 (1986) 113–135
Ash, C.J., Categoricity in hyperarithmetical degrees 34 (1987) 1–14

Baldwin, J.T., and Harrington, L., Trivial pursuit: Remarks on the main gap 34 (1987) 209–230
Barker, E., Intrinsically Σ^0_α relations 39 (1988) 105–130
Baumgartner, J.E. and Shelah, S., Remarks on superatomic Boolean algebras 33 (1987) 109–129
Bélair, L., Substructures and uniform elimination for p-adic fields 39 (1988) 1–17
Blass, A., Selective ultrafilters and homogeneity 38 (1988) 215–255
Blass, A. and Gurevich, Y., Henkin quantifiers and complete problems 32 (1986) 1–16
Blass, A. and Shelah, S., There may be simple $P_{\aleph_1}$- and $P_{\aleph_2}$-points and the Rudin–Keisler ordering may be downward directed 33 (1987) 213–243
Brandt, U., Index sets in the arithmetical hierarchy 37 (1988) 101–110
Brown, D.K. and Simpson, S.G., Which set existence axioms are needed to prove the separable Hahn–Banach theorem? 31 (1986) 123–144
Buchholz, W., A new system of proof-theoretic ordinal functions 32 (1986) 195–207
Buchholz, W., An independence result for $(\Pi^1_1\text{-CA}) + \text{BI}$ 33 (1987) 131–155

Canjar, M., Countable ultraproducts without CH 37 (1988) 1–79
Cartmell, J., Generalised algebraic theories and contextual categories 32 (1986) 209–243
Cenzer, D., Clote, P., Smith, R.L., Soare, R.I. and Wainer, S.S., Members of countable Π^0_1 classes 31 (1986) 145–163
Chong, C.T., 1-generic degrees and minimal degrees in higher recursion theory, II 31 (1986) 165–175
Clote, P., *see* Cenzer, D. 31 (1986) 145–163
Compton, K.J., Henson, C.W. and Shelah, S., Nonconvergence, undecidability and intractability in asymptotic problems 36 (1987) 207–224
Cooper, S.B. and Epstein, R.L., Complementing below recursively enumerable degrees 34 (1987) 15–32
Cox, P.T. and Pietrzykowski, T., Incorporating equality into logic programming via surface deduction 31 (1986) 177–189
Crossley, J.N., Manaster, A.B. and Moses, M.F., Recursive categoricity and recursive stability 31 (1986) 191–204

Dehornoy, P., Π^1_1-complete families of elementary sequences 38 (1988) 257–287
Dekker, J.C.E., Isols and Burnside's lemma 32 (1986) 245–263
Diaconescu, R. and Kirby, L.A.S., Models of arithmetic and categories with finiteness conditions 35 (1987) 123–148
Di Prisco, C.A. and Llopis, J., On some extensions of the projective hierarchy 36 (1987) 105–113
Downey, R.G., Sound, totally sound, and unsound recursive equivalence types 31 (1986) 1–21
Downey, R.G., Undecidability of $L(F_\infty)$ and other lattices of r.e. substructures 32 (1986) 17–26
Downey, R.G., Maximal theories 33 (1987) 245–282
